AFIGF 2026
DELEGATE SHUTTLE SERVICE

Two-Shuttle Transportation Plan

Africa Internet Governance Forum 2026
Venue: Labadi Beach Hotel, Accra | Dates: 2–5 November 2026

1. Background

Ghana will host the Africa Internet Governance Forum (AfIGF) 2026 at the Labadi Beach Hotel, Accra, from 2–5 November 2026. A number of delegates will be accommodated in hotels around Labadi, Cantonments and Tse Addo. To provide convenient and reliable transportation to the Forum, a dedicated two-shuttle system is proposed.

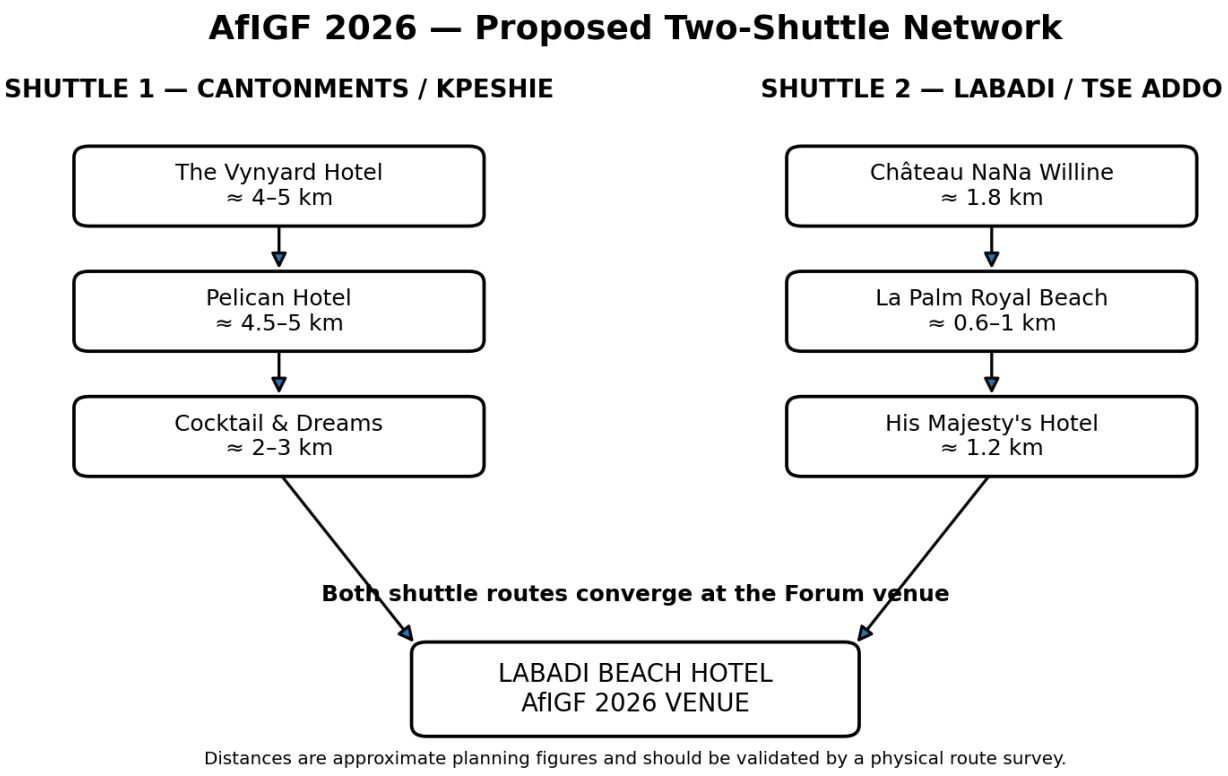

2. Proposed Two-Shuttle Arrangement

Rather than operating one bus across all accommodation facilities, two buses will operate on separate routes based on the proximity and geographic location of the hotels. This will reduce the number of stops per vehicle, improve punctuality and make the service easier for delegates to understand.

3. Shuttle Routes and Approximate Distances

Shuttle	Hotel	Approx. distance to venue	Route
Shuttle 1	The Vynyard Hotel	≈ 4–5 km	Cantonments / Kpeshie
Shuttle 1	Pelican Hotel	≈ 4.5–5 km	Cantonments / Kpeshie
Shuttle 1	Cocktail & Dreams Hotel	≈ 2–3 km	Cantonments / Kpeshie
Shuttle 2	Château NaNa Willine Hotel	≈ 1.8 km	Labadi / Tse Addo
Shuttle 2	La Palm Royal Beach Hotel	≈ 0.6–1 km	Labadi
Shuttle 2	His Majesty's Hotel & Apartments	≈ 1.2 km	Labadi / Trade Fair

5. Proposed Morning Service

The two buses should operate independently so that a delay on one route does not affect delegates using the other route. The following is a proposed timetable and can be adjusted after a route test.

Time	Shuttle 1	Shuttle 2
6:50 am	The Vynyard	—
7:05 am	Pelican Hotel	—
7:15 am	—	Château NaNa Willine
7:20 am	Cocktail & Dreams	—
7:30 am	—	La Palm Royal Beach
7:40 am	—	His Majesty's
7:35–7:50 am	Arrive Labadi Beach Hotel	—
7:50–8:00 am	—	Arrive Labadi Beach Hotel

6. Evening Return Service

The evening service will operate in reverse:

• Shuttle 1: Labadi Beach Hotel → Cocktail & Dreams → Pelican → The Vynyard

• Shuttle 2: Labadi Beach Hotel → His Majesty's → La Palm Royal Beach → Château NaNa Willine
